What I did in one sentence

- Blah
- Blah
- blah

## PROFESSIONAL WORK EXPERIENCE:

Senior Full Stack Developer - Nifty Marketing

Oct 2018 - Jan 2022

- Hard working and motivated, team was behind on projects, caught them up and made myself invaluable by bringing ideas to the table and getting tasks done before they were due
- Detail oriented and reliable, paired with excellent design skills lead to frontend developer. This meant complex, large scale, time sensitive projects that need additional custom coding and features
- Aware of company needs and took steps to better them team and company before issues become problems. This meant the company was ahead of the curve.

Developer - 216Digital

June 2015 - Oct 2018

- Intelligent and patient, learned Miva language on the job
- Organized and not a time waster, learned SASS, Regular Expressions, and deepend JS .
- Fast learner and flexible, often given tasks like SEO, Affiliate marketing, Rakatan, ShareASale, emails blasts with Constant contact and MailChimp until replacements were found
